Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 December 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Lyons et al. (US 5,826,216).

Regarding claim 12: Lyons et al. discloses a vehicle occupant protection system comprising determining a distance of the vehicle to objects on a roadside on an ongoing basis according to size; determining whether the distance is less than a critical distance; initiating protective measures as a function of the determination determining a host vehicle velocity by magnitude; and determining the critical distance as a function of the determined host vehicle velocity (col. 7, line 55-col. 8, line 20; col. 11, line 18-col. 12, line 32).

Regarding claim 13: Lyons et al. disclose wherein, if it is determined that the actual distance is less than a first critical value, protective measures of a first kind are initiated, and if it is determined that the actual distance is less than a second critical value, which is less than the first critical value, protective measures of a second kind are initiated (col. 8, line 10-20; col. 12, line 32-col. 13, line 8).

Art Unit: 2612

Regarding claim 14: Lyons et al. disclose, wherein the protective measures of the first kind include at least one of an audible and visible signaling to a driver of the vehicle (col. 8, line 20).

Regarding claim 15: Lyons et al. disclose wherein the protective measures of the second kind include at least one of (a) an activation of at least one reversible restraining device (col. 8, lines 18-20) and (b) a preparation of at least one irreversible restraining device (col. 13, lines 40-67).

Response to Arguments

Applicant's arguments filed on December 26, 2006 have been fully considered but they are not persuasive. Because,

Applicant's Arguments:

a). The Lyons et al. reference does not disclose a distance of the vehicle to objects on a roadside on an ongoing basis according to size.

b). The Lyons et al. reference does not disclose determining a host vehicle velocity by magnitude and determining the critical distance as a function of the determined host vehicle velocity.

Response to Arguments:

a). Lyons et al. disclose the range determining device (24) detects the distance between the vehicle and the object at a distance of 4.5 feet and continues on until the distance of 2.25 feet and until it exceeds the predetermined threshold (col. 12, lines 35-58).

b). Lyons et al. disclose the determination of velocity between the transducer device (host vehicle) and the object (col. 5, lines 45-46); thus, the magnitude of the velocity is determined.

Allowable Subject Matter

Claims 16 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
